

**Eastern Cape: Sarah Baartman District Municipality(EC 104) - Draft Schedule of Service Delivery Standards Table 2019/20**

Description	Service Level
<p><b>Standard</b></p> <p><b>Solid Waste Removal</b>                      Premise based removal (Residential Frequency)                      Premise based removal (Business Frequency)                      Bulk Removal (Frequency)                      Removal Bags provided(Yes/No)                      Garden refuse removal included (Yes/No)                      Street Cleaning Frequency in CBD                      Street Cleaning Frequency in areas excluding CBD                      How soon are public areas cleaned after events (24hours/48hours/longer)                      Clearing of illegal dumping (24hours/48hours/longer)                      Recycling or environmentally friendly practices(Yes/No)                      Licenced landfill site(Yes/No)</p>	<p>Once a week                      Once a week                      Once a week                      yes one per week                      got 52 identified garden refuse dumping spots                      every day                      when needed                      24 hours                      longer                      yes we try                      yes</p>
<p><b>Water Service</b>                      Water Quality rating (Blue/Green/Brown/NO drop)</p> <p>Is free water available to all? (All/only to the indigent consumers)                      Frequency of meter reading? (per month, per year)                      Are estimated consumption calculated on actual consumption over (two month's/three month's/longer period)                      On average for how long does the municipality use estimates before reverting back to actual readings? (months)  <b>Duration (hours) before availability of water is restored in cases of service interruption (complete the sub questions)</b>                      One service connection affected (number of hours)                      Up to 5 service connection affected (number of hours)                      Up to 20 service connection affected (number of hours)                      Feeder pipe larger than 800mm (number of hours)                      What is the average minimum water flow in your municipality?                      Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)                      How long does it take to replace faulty water meters? (days)                      Do you have a cathodic protection system in place that is operational at this stage? (Yes/No)</p>	<p>Assessment is conducted once a year by the Department of Water and Sanitation, Water quality sampling and analysis is done monthly.                      Only to the indigent                      Yes                      some 3 months/some longer periods                      varies on circumstances/some 3 months/some longer than 3 months</p> <p>2 hours                      4 hours                      24 hours                      8 hours                      45900kl</p> <p>No, Environmental components are attended by the relevant section                      domestic meter 30 days, bulk meter 30 days if it is on a built chamber                      Yes, but only at James Kleynhans side</p>
<p><b>Electricity Service</b>                      What is your electricity availability percentage on average per month?                      Do your municipality have a ripple control in place that is operational? (Yes/No)                      How much do you estimate is the cost saving in utilizing the ripple control system?                      What is the frequency of meters being read? (per month, per year)                      Are estimated consumption calculated at consumption over (two month's/three month's/longer period)                      On average for how long does the municipality use estimates before reverting back to actual readings? (months)                      Duration before availability of electricity is restored in cases of breakages (immediately/one day/two days/longer)                      Are accounts normally calculated on actual readings? (Yes/no)                      Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)                      How long does it take to replace faulty meters? (days)                      Do you have a plan to prevent illegal connections and prevention of electricity theft? (Yes/No)                      How effective is the action plan in curbing line losses? (Good/Bad)                      How soon does the municipality provide a quotation to a customer upon a written request? (days)                      How long does the municipality takes to provide electricity service where existing infrastructure can be used? (working days)                      How long does the municipality takes to provide electricity service for low voltage users where network extension is not required? (working days)                      How long does the municipality takes to provide electricity service for high voltage users where network extension is not required? (working days)</p>	<p>Yes- two of our main feeding substation do have an operational ripple control. No- one of our main feeding substation doesn't have a ripple control                      it will save the Municipality from being charged the penalties                      Per Month                      Two Month                      Three Month                      it depends on the nature breakages but maximum is one day                      yes on pre-paids but on bulk &amp; conventional meter its actual reading and maximum demand</p> <p>No                      24 hours after notification</p> <p>No                      No plan at all</p> <p>5 working days                      within standard period of 90 days (3 months)                      within standard period of 90 days (3 months)                      within standard period of 90 days (3 months)</p>

<p><b>Sewerage Service</b>  Are your purification system effective enough to put water back in to the system after purification?  To what extent do you subsidize your indigent consumers?  <b>How long does it take to restore sewerage breakages on average</b>  Severe overflow? (hours)  Sewer blocked pipes: Large pipes? (Hours)  Sewer blocked pipes: Small pipes? (Hours)  Spillage clean-up? (hours)  Replacement of manhole covers? (Hours)</p>	<p>Yes, recycling is done. 0</p> <p>3 HOURS, up to 450mm  2 hours up to 160mm  1 hour  45 minutes per cover</p>
<p><b>Road Infrastructure Services</b>  Time taken to repair a single pothole on a major road? (Hours)  Time taken to repair a single pothole on a minor road? (Hours)  Time taken to repair a road following an open trench service crossing? (Hours)  Time taken to repair walkways? (Hours)</p>	<p>24 hours  48 hours or longer  Immediately  72 hours or longer</p>
<p><b>Property valuations</b>  How long does it take on average from completion to the first account being issued? (one month/three months or longer)  Do you have any special rating properties? (Yes/No)</p>	<p>It takes approximately 6 Months as 2 supplementary valuation rolls are done per financial year (half yearly). Charges are backdated to date of completion.  No</p>
